200 KNIGHTS AT RABBIT SUPPER

Crowd at K. of P. Feast Exceeds
Expectations and Hunters
Barely Have Enough Game.

SOME PAST GRAND OFFICERS

S. L. Trabue Presides as Toastmas-
ter and Number of Visiting
Members Make Speeches.

Nearly 200 Knights of Pythias at-
tended the rabbit supper last night
served at the banquet room of the
hall. Several visitors were present,
including some past grand officers.
The banquet was the start of a cam-
paign which is expected to culmi-
nate in a membership of 500 for the
local lodge.

This has been the goal set for this
year and there is every reason to
believe that it will be reached. The
rabbit supper was given for the pur-
pose of getting a large number of
the lodge members together and
then starting the campaign.

The crowd far exceeded the ex-
pectations of the committee in
charge and the hunters who invad-
ed the fields this week seeking the
elusive rabbit came nearly not get-
ting enough game.

Samuel L. Trabue presided as
toast master and a number of visit-
ing members responded. Among
those who spoke were Charles F.
Remy of Indianapolis, past grand
chancellor; Harry Wade, Indiana-
polis, past grand keeper of records
and seals and at present president
of the insurance department of the
order; Col. C. A. Phelps, Newcas-
tle, commanding the Third Regiment
of the Uniform Rank, and James B.
Compton, Newcastle, district deputy
grand chancellor. Chauncey Dun-
can spoke for the local lodge, urging
each member to be a hustler.

Mr. Compton, the district deputy
grand chancellor, urged a large at-
tendance at the district meeting of
the order to be held in Cambridge
City next Thursday, afternoon and
evening. Several from the local
lodge will attend this meeting.

A delegation of twelve was pres-
ent from the Newcastle lodge.

\$25,000 ASKED ON BREACH OF PROMISE

Suit of Bertha L. Collins Against
Earl Gibbs Comes From Han-
cock on Change of Venue.

HUMILIATED, SHE ASSERTS

A sensational breach of promise
suit from Hancock county has been
received in the local circuit court on
a change of venue. It is the suit of
Bertha L. Collins against Earl Gibbs
in which the demand is \$25,-
000.

The plaintiff alleges that on De-
cember 25, 1915, he promised to
marry her and that the wedding was
set for May 1, 1916. The com-
plaint states that she relied on his
promise and went to great expense
in preparing for the wedding. On
May 1 she requested him to marry
her, according to the complaint, and
he refused.

She says she is willing and ready
to marry him and that the contract
was not carried out through any
fault of hers. She avers that on ac-
count of his failure to marry her
she has suffered great mental an-
guish and has been greatly humiliat-
ed.

JACKSON COMING TUESDAY

Originator of Bean Family and Pa-
per Cutter at Christian Church.

The Young Men's Circle of the
Main Street Christian Sunday
school will hold a business meeting
after the regular class meeting Sun-
day morning to make final arrange-
ments for the entertainment Tues-
day night at the Christian church to
be given by Chic Jackson, origina-
tor of Roger Bean, and Everett Da-
vis, scissors expert. The class has
sold a large number of tickets and
is expecting a large crowd. Jackson
will present drawings of the famous
family and Davis will do some fancy
paper cutting.

TALKS TO BE MADE BY LOCAL MEMBERS

James E. Watson Unable to Speak
at Elks Annual Memorial
Here on Sunday.

HAS TO GO TO WASHINGTON

The Elks memorial services will
be held tomorrow afternoon at two
o'clock in the lodge room. James
E. Watson was to have delivered the
memorial address but had to can-
cel it when he found he must leave for
Washington. The committee was
then unable to secure another
speaker and the program will be
made up of short talks by local
members.

The local lodge has lost three
members the past year, bringing the
total deaths up to four since the
lodge was organized. The three
members who have died within the
past year were J. W. Tompkins, Col.
E. H. Wolfe, and William E. Havens.
The previous death was George
Weeks.

ASKS REVIEW OF TWO JUDGMENTS

City of Rushville Files Complaint in
Circuit Court Bearing on Gas
Rate Cases.

WANTS ERRORS CORRECTED

The City of Rushville has filed
two complaints in circuit court ask-
ing the court to review the judg-
ments in the cases of the city
against the Public Service Com-
mission involving the Peoples Nat-
ural Gas company and the Central
Fuel company.

The city filed suit originally ask-
ing for an injunction against the
commission from enforcing the gas
rate authorized by the commission.
The demurrers of the defendant to
both of the complaints were sus-
tained by Judge Sparks. In the
suits filed today the city says that
the judgment of the court is still in
effect and remains unappealed. The
city asks that the judgment of the
court be reversed and that the er-
rors of law be corrected. Kiplinger
and Smith represent the city.

80 CHINESE PUT TO DEATH

Americans Reported in Chihuahua
City as Late as Last Monday.

El Paso, Texas, Dec. 2.—Authen-
tic information was obtained here
today from high military source that
at least 80 Chinese residents of
Chihuahua City were clubbed to
death by Villistas after the city
was captured by them and that the
six Americans known to be there be-
fore Villistas entered were still in
the city last Monday.

POLICY HOLDERS HERE AFFECTED

Many Invested in Two Indiana Com-
panies Reinsured by Pension
Mutual of Pennsylvania.

SOME ALSO HELD MUCH STOCK

Letter Received Here Says Com-
pany is Hopelessly Insolvent and
Receivership Impends.

A letter has been received here
from J. D. O'Neil, insurance com-
missioner of Pennsylvania, stating
that the Pension Mutual Life Insur-
ance company of that state is hope-
lessly insolvent and that the com-
missioner has applied to the Dauph-
in county, Pennsylvania, court for a
decree of dissolution and the ap-
pointment of receiver.

That would not mean much to
Rush county readers but for the fact
that the Pension Mutual reinsured
the Commercial Life Insurance com-
pany and the Reliable Life Insurance
company, both of Indiana, in which
many here had taken policies. Fur-
thermore, all of the policy holders
in the Commercial life received op-
tions on stock with their policies and
some purchased the stock. The Pen-
sion Mutual was engaged solely in
reinsuring companies.

This brings to the attention of the
people of Indiana, it is stated by
agents here of reliable companies,
the need of legislation that will pre-
vent just what has happened in the
cases of the Reliable Life and the
Commercial Life.

It was being recalled here today
that Indiana should have insurance
laws like those of Massachusetts,
which are acknowledged to be the
best of any state in the United
States, and after which the New
York insurance law was modeled. It
is held that Indiana is sadly in need
of an insurance commissioner like
that of Pennsylvania who, backed
by a sound statute, can watch the
activities of all companies and see
that no "wildcat" schemes such as
have been worked in Indiana can be
foisted off on the people.

It is remembered that J. Frank
Hanly, when governor of Indiana,
prepared a model insurance law for
the state, but that it failed of pas-
sage because of Hanly's personal
unpopularity, combined with the ac-
tive opposition of the state insur-
ance lobby.

The worst feature, it is claimed
by those acquainted with the insur-
ance business, that is allowed to be
practiced in Indiana, is the stock
option scheme which allows agents
to hold out glowing prospects of
getting rich quick, when agents of
reliable companies are selling insur-
ance solely on its merits as it should
be sold.

A dispatch from Philadelphia to
the New York Times says that as a
result of the recent disclosure re-
garding the operations of the Pen-
sion Mutual agencies, a legislative
investigation of insurance condi-
tions in Pennsylvania may result.
James D. Scarlet, who acted as at-
torney in the insurance cases, the
dispatch further says, declared that
Charles E. Hughes was the man who
should conduct the investigation.
The proposal to investigate, it is
said, will be bitterly opposed by
some politicians who are interested
in the Pension Mutual.

RIB IS BROKEN.

Jake Stewart of West Third street
is suffering from injuries he sus-
tained a few days ago when, while
working on a barn northwest of
here, a ladder fell, striking him on
the head and knocking him down. In
falling, he struck a rail and a rib
was broken.

—George Foster of Knightstown
spent the day here.

ASKS FOR \$500 IN THIS COUNTY

State Park Committee Requests
Sum be Raised Here to Help
Establish Park System.

W. R. JINNETT GETS LETTER

Communication Signed by Governor
and Governor-Elect Asks Help
Outside Indianapolis.

Representative W. R. Jinnett of
Manilla has received a request
signed by Governor Ralston and
Governor-elect Goodrich to raise
\$500 in Rush county towards the
fund being used to establish a state
park system as a part of the state
Centennial celebration.

Because Rep. Jinnett has been
called to Hendricks county on busi-
ness to remain for two weeks, he
will be unable to look after the sub-
ject and has asked the Daily Re-
publican to receive subscriptions
and forward them to the treasurer
of the fund. Anyone who cares to
contribute to the cause should write
their checks payable to Sol. E. Kis-
er, treasurer, and send them to the
Daily Republican. They will in turn
be sent on to Mr. Kiser in Indiana-
polis.

The state park system was start-
ed under the guidance of the In-
diana Historical Commission, which
was in general charge of the county
celebrations and final state Centen-
nial celebration.

The work has been carried on by
volunteer committees who have suc-
ceeded in raising large sums of
money and in acquiring two park
sites—Turkey Run in Parke county
and McCormick's Canyon in Owen
county—as a nucleus. As soon as
these park sites have been fully
paid for and the legislature has
created the proper authority for the
acceptance of them by the state, the
state park committee will present
these parks to Indiana.

The bulk of the money has been
raised in Indianapolis, but inasmuch
as these gifts are supposed to rep-
resent a permanent memorial for the
citizens of the entire state, the
park committee believes it fitting
that every county in the state
should be represented by the contri-
butors.

A very large amount of money is
still required to complete the pay-
ments and the committee now calls
on the counties outside of Marion
county to do their part. Represen-
tative Jinnett was selected by the
committee to obtain the services of
a volunteer committee of three to
five men to raise Rush county's
share of the burden—\$500.

AMERICANS GET OUT OF THE CITY

State Department Agents on Border
Report Say Refugees Report
They Escaped.

VILLA ORDERS NO LOOTING

(By United Press.)
Washington, Dec. 2.—All Ameri-
cans had left Chihuahua City before
the Villista and Carranzista battle
began there, state department rep-
resentatives on the border were told
by all refugees who arrived there, ac-
cording to a statement from the state
department today.

The refugees told state department
border officials that Villa had order-
ed no looting and they believed no
foreigners had been killed except two
Chinese.

CHILD IS BURNED TO DEATH

Boy's Younger Sister Also Receives
Fatal Injuries Today.

Indianapolis, Ind., Dec. 2.—When
Mrs. John C. Maxley returned to
her home after a shopping trip to-
day, she found the body of her son
William, three years old, burned to
a crisp, and her daughter Maud, 20
months old, unconscious and so se-
verely burned that physicians hold
out no hope for her recovery. The
fire was caused when the boy igni-
ted some gasoline which the mother
had left.

CHANGE OCCUPIES MOST OF THE TIME

George B. Moore, Jr., Takes Office
As Clerk and Business in
Court as a Result is Light.

PASSES APPLES AND CIGARS

Business was light in circuit
court today as the change of officers
in the clerk's office occupied most of
the attention. The office opened this
morning with George B. Moore, Jr.,
and his deputy Charles Brooks in
charge. A. M. Taylor, the retiring
clerk and Mrs. Buelah Stevens, his
deputy will remain in the office a
few days to see that the new offi-
cers get onto the "ropes."

James Kratzer paid his fine of \$10
and costs and John Wolter had his
stayed this morning. Both men
were recently found guilty of run-
ning a gambling house by a jury in
circuit court and were fined \$10 and
costs. The fine and costs amounts
to \$26.10. With the paying of one
fine and the staying of the other all
rumors of an appeal are set at rest.
The clerk-elect passed out cigars
and apples to callers.

FAILURE TO SUPPLY FLOUR CAUSES SUIT

C. A. Gambill Manufacturing Co.
Brings Action Against Enter-
prise Milling Co. of Milroy.

WANTS \$3,000 ON A CONTRACT

The C. A. Gambill Manufacturing
Company, a Maryland corporation,
has filed suit against Thomas E.
Bottorff of Milroy, doing business as
the Enterprising Milling Company,
on a contract, demanding \$3,000.
The plaintiff alleges that the defend-
ant contracted to supply them 2,000
barrels of flour during the months of
July and August for export shipment,
sending the flour to Baltimore.

The complaint is in two para-
graphs, the first setting out the
claims of the plaintiff regarding the
amount of flour offered. The second
paragraph sets out two telegrams,
one from Bottorff offering to sell
the plaintiff 2,000 barrels of 95 per
cent straight bulk flour at \$5 a bar-
rel. The other telegram is an ac-
ceptance of the offer, the plaintiff
holding that these two telegrams
constituted a contract.

The complaint states that shortly
after the offer and contract was
made, the price of flour advanced and
the firm was compelled to pay the
sum of \$6.35 a barrel for flour to fill
their foreign orders.

MANIAC SHOTS SHERIFF; CAUGHT

Martin Rice, Murderer of Charles
Jones of Vermillion County,
Gives Himself up.

POSSE SURROUNDS HOUSE

Officer is Riddled With Bullets by
Insane Man Whom he Tried
to Place Under Arrest.

(By United Press.)
Cayuga, Ind., Dec. 2.—Martin
Rice, the maniac who shot and killed
Sheriff Charles Jones of Vermillion
county when the officer attempted to
take him into custody, was arrested
today without resistance.

Rice returned to his home under
cover of darkness. Members of the
posse who were watching the house
did not see him enter but just be-
fore dawn they saw a light in the
window. The house was surrounded
and the posse gradually advanced.
Rice met them at the door and
gave himself up. He was placed in
an automobile and taken to New-
port.

Sheriff Jones was called to Rice's
home by Mrs. Rice, who said her
husband had threatened to kill her.
Rice was once an inmate of asylum.
He ran a small store.

Rice opened fire as Jones stepped
on to the platform of the store and
did not stop until he had emptied his
gun, every one of the five shots find-
ing lodgment in the sheriff's body.

It is believed that the first shot
killed Jones. Rice then threatened
to kill any one who followed him and
passing out of the back door of his
little store, soon was lost in the
darkness. The news was spread
quickly and surrounding towns were
notified to be on the lookout for the
slayer and to take no chances with
him.

FEDERAL AGENTS ORDERED TO HELP

District Attorneys Instructed to As-
sist Investigating Food Price
Conspiracies.

SPECIAL AGENT APPOINTED

(By United Press.)
Washington, Dec. 2.—Every fed-
eral district attorney in the United
States was today ordered to give all
possible aid to George W. Anderson
in his investigation of alleged food
price conspiracy.

So important does the department
of justice consider the work that An-
derson has been named special as-
sistant to the attorney general. This
gives him jurisdiction to investigate
and prosecute any resultant discov-
eries of conspiracies in any section
of the country.

Department officials today said the
appointment of Anderson is not the
result of any "specific suspicion" as
to food price conspiracies.

the reason. After his wife took him

Amusements

The Princess offers the feature
picture "Evidence" for the Saturday
night program. Lillian Tucker and
Edwin August are featured. It is
said to be a wonderful dramatic offer-
ing. Monday the feature picture
"Miss Petticoats" will be shown. It
was adopted for the screen from the
book by Dwight Tilton. Alice Brady
is featured. The many scenes re-
quiring a sea or mill scene were
filmed in the requisite locale, the old
fishing schooner, the Charles W.
Morgan of New Bedford, Mass., as
well as the Wunsutta Mills being
utilized in the production of this
feature.

The formal opening of the Gem
under the management of Miss
Mary Mason will take place tonight.
Special music is on the program
and flowers will be given the ladies.
An unusually strong program is of-
fered for the opening night. "The
Heart of a Show Girl" is the title of
the first picture. Ella Hall and
Franklyn Farnum are featured. The
second is a comedy "The Right Car
but the Wrong Bertha." The last is
a comedy "The Terrible Turk." Ed-
die Lyons and Lee Moran are fea-
tured.

Perfect accord between film fans
and art critics will prevail in Rush-
ville Tuesday and Wednesday, Dec.
5th, and 6th. The subject will be
the super-feature "Purity" which
will be shown at the Mystic theatre.

The artists of America are just
now united in the opinion that there
is one woman above all others that
stands out as the most perfectly
proportioned figure of the day. She
is the model supreme, the personifi-
cation of the flowing line. She is
Audrey Munson, known everywhere
as the model who posed for the most
beautiful portions of the statuary at
the San Francisco Exposition. In
"Purity" she illustrates exactly why
she has thus been signally honored.
It is required by the plot that she
pose for an artist that all the per-
fection of her body be revealed to
the artist's eye, and through him to
the world at large. It is the pur-
pose of the picture to prove that
such revelation is as pure as any
other revelation of divine truth
which has been given the world in
any form. That this purpose is ac-
complished is apparent to all who
have seen the picture. Miss Munson
is supported by a cast of two hun-
dred dancing girls especially trained
by a pupil of the famous dancer,
Ruth St. Denis.

The Hot Blast Furnace

Read what Mr. J. B. Howard, the inventor of the FLORENCE,
has to say:

If any stove manufacturer or dealer can produce a
Jointless Leg Bottom and Base with Full Radiation
outside the Hot Blast Air Tight Florence Base, I will
give him \$5,000. This offer holds good until the first of
January, 1917.

(Signed) J. B. HOWARD.

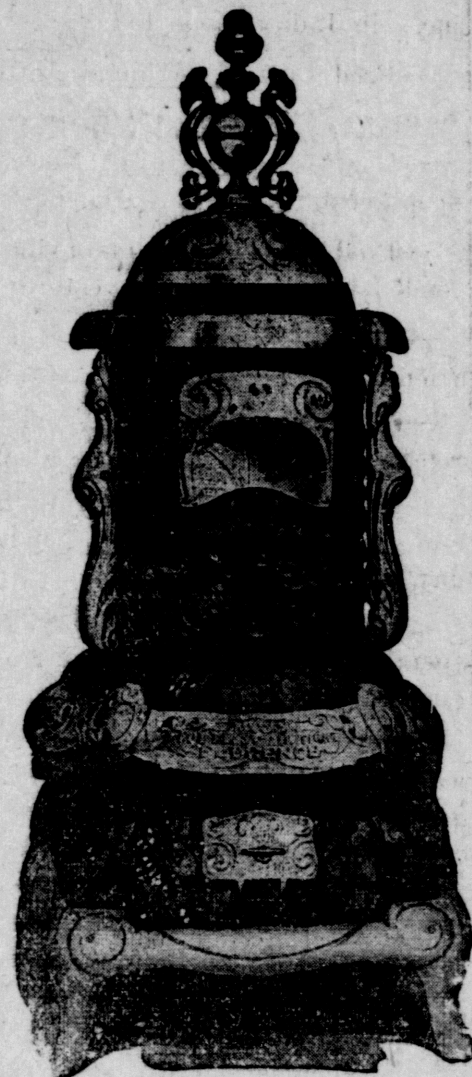

The HOT BLAST AIR TIGHT FLORENCE is the only stove that
was ever made and is on the face of the earth today that has a
JOINTLESS LEG BOTTOM AND BASE WITH FULL RADI-
ATION, and that means as good a fire-keeper twenty-five years
from now as it is today.

The above offer includes every stove manufacturer and dealer, or
any stove that was ever made. This offer holds good until Jan-
uary 1st, 1917, because Mr. Howard does not pretend to know
what will be on the market in 1917, but he does know what is on
the market in 1916.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Factors in Road Problems.

The highway engineering department of Purdue university has lately issued a highway bulletin, chief interest in which lies the conclusion that are reached. The highway authority who is author of the pamphlet, although expressing pride for the fine system of roads which Indiana now enjoys, says that the time has passed when road problems can be met in the same way they always have been—by treating them locally.

The conclusion of the pamphlet is in the main an appeal for a state highway department so that Indiana can reap benefit from the federal aid highway law. The United States government will treat only with states for reasons which are very apparent, and in order to get her share of the funds which have been appropriated by congress to help states build permanent highways, Indiana must have an organized agency, backed by an efficient law, to look after all road matters.

"Roads which were entirely satisfactory ten years ago," says the conclusion of the bulletin, "are now inadequate to carry the traffic which comes upon them. Road building is speedily advancing from rule of thumb methods to its proper place as one of the engineering sciences. It is no longer possible for every man to be a good road builder. To build roads to meet present conditions require extensive training and experience. It is not possible for the small subdivisions to obtain men qualified to design and construct these modern highways."

Here we have the testimony of the expert and there is none who is so fortified that he can intelligently refute the assertions. We all know that building roads is a matter of dollars and cents to the taxpayers. We know also that we have spent over a million dollars for new roads in Rush county in the last decade and have very few permanent highways. It is time that we listen to the expert, the man best qualified to speak, on this matter of road building because it is an expensive experiment.

When you get ready to purchase your Christmas gifts—as you should be doing even now—remember that Rushville merchants have gone to considerably outlay to giving their patrons of Rush county the widest selection possible.

Since it is announced that the orders from the war department to "get Villa" still are in force, General Pershing should not have a great deal of difficulty in accomplishing that feat if he is allowed to "cut loose."

This business of living on 33 cents a day, as the diet squad in Chicago is, might be all right if a person had nothing to do after eating one meal but to arrange for the next one as cheaply as possible.

Now that Greece has had her steenth crisis, we may go on about our business with the usual calm restored.

By the way, there are only 18 more shopping days 'til Christmas.

Lining Up for Greatest Labor Fight in History

On one side, are the railroads of the United States representing a capitalization of twenty billions of dollars, and employing more than one and a half million persons, combined to fight the Adamson Law by injunction. They are supported by a new eight billion dollar organization of business men, called the National Industrial Conference Board, who give employment to nearly seven million persons. On the other side, are four hundred thousand members of four great Brotherhoods, backed by nearly four hundred thousand other workers and by the two million members of the American Federation of Labor.

With such an alinement there are ominous possibilities of a tremendous labor war this winter.

The railroad companies, according to one of their official spokesmen, "are agreed to fight to the end," against the enforcement of the Adamson law, while Samuel Gompers, President of the American Federation of Labor, says warningly "You throw down the gauntlet and we accept the challenge. When the time comes it will be another case of 'Lay on Macduff and damn'd be him that first cries 'Hold, enough.'"

"The Digest" Makes You An Independent Thinker

"Give every man thy ear" is the shrewd advice of the immortal bard, "but reserve thy judgment." No one of the sage maxims which he puts into the mouth of Polonius contains more practical wisdom than this. It applies with peculiar force to the question of modern periodicals. There are so very many of these and their statements and opinions differ so radically. Obviously to "give ear" to all of them and then to make one's own decision as

to what appear to be the facts is the best way to arrive at the truth, but no one has the time or the energy to dream of attempting this. THE LITERARY DIGEST actually does this for you every week and presents you with an impartial survey of the results, leaving you to form your own conclusions. It gives you all sides of all the great questions of the day without an atom of partizan bias, and makes you the judge and jury. Buy it to-day and do your own thinking.

BIBLE MANUSCRIPTS.

The Sinaitic, Alexandrian and Vatican Are the Oldest Known.

The oldest Bible manuscripts now in existence date from about 300 to 450 A. D. and show us the Bible as it existed soon after apostolic days. All the earlier manuscripts were either lost or destroyed in the terrible persecutions which were directed not only against the Christians, but against their treasured sacred writings, their enemies thus hoping to stamp out even the slightest traces of Christianity. The three oldest manuscripts now in existence are known as the Sinaitic, the Alexandrian and the Vatican manuscripts.

The Sinaitic was found by the eminent Bible scholar Tischendorf in a convent on Mount Sinai in 1844. It contained the Septuagint, other parts of the Old Testament, the New Testament complete and some of the apocryphal books. The writing, after a lapse of more than 1,500 years, is still clear and legible.

The Alexandrian manuscript, which came to light in 1628, is not quite so ancient as the Sinaitic. It has the Old Testament complete, except that ten leaves are missing, and the New Testament lacks nearly thirty leaves. It is in the British museum.

The Vatican manuscript, the most ancient of all, is a great treasure, consisting of about 700 leaves of vellum bound in book form. Part of Genesis is missing and also a number of the Psalms. The New Testament is complete up to Hebrews, ninth chapter.

Other early Bible manuscripts of great value, but inferior to the three mentioned, are the Codex Ephraem and the Codex Bezae, besides which there is a long list of later manuscripts. —Christian Herald.

CONNERSVILLE IS OUTPLAYED

Rushville High School Wins Handily
Away From Home on Dinky
Floor by 35 to 15 Score.

GAME IS ROUGH ALL THE WAY

Both Fives Are Offenders, One Man
on Each Quintet Being Put
Out During Last Half.

Rushville outplayed and outgamed Connerville last night to the tune of 35 to 15. The game was played on the dinky Connerville floor, which makes the Rushville victory all the more remarkable.

The game was a scrap from start to finish and when the players were not at it the spectators who crowded onto the playing floor were taking a hand by tripping the Rushville players. Twice Oakley was tripped and other players came in for their share of abuse. The crowd was out on the floor at both ends of the gym and even with all this advantage the Connerville team was out-classed.

The game was exceedingly rough. Both teams were the offenders. This was probably because both fought so hard to win that the roughness was unintentional. The first half ended 14 to 9 in favor of Rushville and an example of how rough the game was is shown by the fact that Connerville failed to make a field goal in the final period but did register five foul goals and missed probably as many more. Norman Reed and Red Wanley mixed in the last half with the result that both players were taken from the game. Wanley had only been in the game a few minutes when he and Reed came to blows, with the result that both were ejected.

The loss of Reed did not hurt the Rushville team as it had a commanding lead. Rushville was ahead from the very start. Only once did Connerville have a show and that was late in the first half, when the score was tied at six each.

Rushville jumped into a two point lead right at the start when two fouls were called on Connerville and Martin made both of the free throws count. This two point lead was soon increased to five while Connerville had nothing. Then Connerville braced and worked into a tie at six points. Rushville gradually pulled away and by some of the best team work ever seen on the Connerville floor secured a lead of

five points at the end of the first half.

The Rushville guards broke up Connerville plays before they hardly got started. Rushville was on the offensive throughout and the work of Martin, Thorpe, Oakley and Keating as the point getters was far superior to anything offered by Connerville. The victory last night is two this season for the locals over Connerville. In the game on the home floor Rushville beat Connerville 52 to 6 and the result last night clearly shows that Rushville has it on the Connerville team this year. The line-up and summary: Rushville (35) Connerville (15)

EARLY MAILING IS NOW BEING URGED

Fearful of Rush That is to Come
Postal Officials Advise Mail-
ing Now.

WILL HELP EMPLOYEES

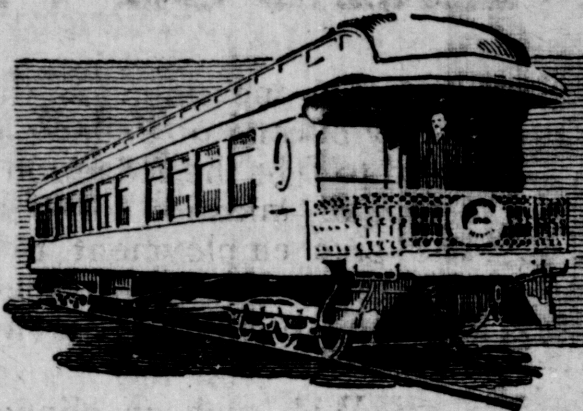

(By United Press.)
Washington, Dec. 2.—"Don't your Christmas mailing early and that means—do it now."

Fearful of a rush of business in the several days before Christmas which will jam the postal system so that some mail will necessarily be delayed, officials today came to bat with the above warning.

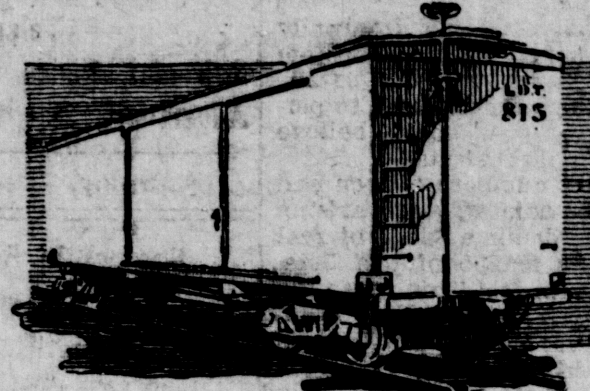

"It is absolutely urgent," said one, "that mail going to foreign countries get away at once if Christmas deliveries are hoped for. The censorship of the belligerent countries spells delay and even countries not at war are having trouble with their mail."

Postal employees are looking forward with dread to the Christmas parcel post load. If those who usually wait until the last minute, will only hurry up, mark the packages, "Not to be Opened Until Christmas," they will confer a series of joys, one to the recipient and one each to every postal employee who has to handle the package.

Which
Do You
Prefer?

Pullman or Freight?

No one would think of riding in a freight car if he could enjoy the comfort of a big, comfortable easy riding Pullman parlor car.

So with automobiles. Most of the popular priced cars ride like freight cars. This is due to the old fashioned type of spring.

Many manufacturers still continue to use them.

The Overland does not. The 75 B Overland has the latest type of cantilever shock absorbing springs. As a result it is one of the easiest riding cars in the world. One demonstration will prove this. \$635 f. o. b. Toledo.

Miss Dorothy Sparks entertained 16 of her boy and girl friends informally at her home in North Main street last evening. Games, music and a social good time featured the evening.

Honoring the guests of Miss Phyllis Dean, Miss Elsie Frazee is entertaining at dinner this evening. Miss Dean's house-guests are friends from Oxford college, Miss Isabelle McNeil of Illinois and Miss Ingeborg Johnson of Texas. Other guests at the dinner are Miss Dorothy Frazee and Miss Marian Titsworth.

At the meeting of the Eastern Star held last evening, officers for the coming year were elected as follows: worthy matron, Mrs. Walter M. Pearce; worthy patron, Roy Mayse; secretary, Mrs. Frank Flint; treasurer, Mrs. Harvey Cowing; conductress, Mrs. Verl Bebout; associate conductress, Mrs. Clara Bebout.

Interest is attached to the recent announcement of the coming marriage of Miss Vera Winship, daughter of William H. Winship of Milroy, and Hubert Thomas of Greensburg. Both of the young people are very well known here, Miss Winship having attended the local high school. She was also a student in Depauw university where she was a member of the Kappa Kappa Gamma sorority, and in the Albany Library School. Since that time, she has been acting as librarian in one of the Cincinnati libraries. The date of the wedding has been set for some time next month, after which the young couple will reside in Greensburg.

None of the parties of the season have surpassed in beauty the formal ball at the Social Club last evening which was attended not only by the majority of the membership of the club, but too a number of out-of-town guests. Throughout the evening, the music furnished by Mitchell's orchestra of this city added to the pleasure of the party by its gayety. The young ladies in their evening frocks made the picture a pretty one. Late in the evening, a buffet lunch was served. The returned college students were prominent among the dancers and among the out-of-town guests were Mr. and Mrs. Ad Leese, Mrs. William Henley, Jr., Hubert Hannah, all of Indianapolis, Miller Hamilton of South Bend, Miss Mary Vermillion

of Anderson, Miss Helen Taylor of Cincinnati, Miss Ruth Lindoerser and Miss Harriet Clark of Garret, Miss Ada Cordes and Miss Kathryn Hancock of Seymour and Miss Luella Smith of Calcutta, India, Miss Carala Dorn of Shelbyville, Paul Guffin of Indianapolis and Mr. Thomas of Greenfield.

The members of the B. N. Club entertained their boy friends at a three course banquet at the Scanlan house Thursday evening. Carnations adorned the tables. Following the dinner, the young people played games and had a general good time while music was furnished by the Victrola.

Mr. and Mrs. Ed Miller entertained Sunday at their home south of the city Mr. and Mrs. Wyland Walker and son, Eugene, Mr. and Mrs. Silvertown Miller and sons, Howard and Carlos Harold, Mr. and Mrs. Study McIntyre and daughter, Helen, and Mr. and Mrs. Ernest Duke of Milroy.

EXERCISE AND HEALTH.

Simple Rules For Developing the Body and Keeping "Fit."

"It isn't necessary to give a lot of time to the job of keeping fit," said the physical director of West Point Military academy. "Ten or fifteen minutes of setting up exercise in the morning and a walk every day—not necessarily a long one, but one in which you march briskly like a soldier, with your head and chest up and your shoulders back—will work wonders. Do you know why so many men are narrow chested and weak? It is because they never have given themselves a chance to breathe and never have given their muscles enough exercise.

"Many people, men, women and children, are semi-invalids most of their lives because of the lack of a few minutes of daily exercise and also because they have never been taught a proper posture and carriage—such, for instance, as we insist upon at all times in cadets—a position in which every organ of the body is held in its proper place, with ample space to carry on its own particular function without restriction, and in which every muscle of the body is furnishing its own transportation, so to speak, and not depending upon other muscles to do for it what it was intended it should do for itself.

"Proper posture and carriage, with shoulders square, chest arched, head erect and body well stretched from the waist up, will of their own account contribute much toward relieving our people of the many petty and not a few of the serious ills from which they are now suffering. They are the foundation of robust health and should be insisted upon in children from the very beginning until they become a habit and as such will displace the disease breeding, slouchy habit now so prevalent among people of all ages and stations."—World's Work.

Acts of the Apostles.

The weight of testimony is in favor of St. Luke as the author of the Acts of the Apostles, though some respectable critics claim that the authorship is quite unknown. There are no sure data for determining the date of the Acts. Various dates have been ascribed. Some think that it was written about the year 80, while others hold that it could not have been written before the second century, about A. D. 125.—New York American.

ARMS EMBARGO TO BECOME LIVE ISSUE

Carranza Said to be Displeased Because he Believes it Responsible For Defeat.

OTHER SIDE OF QUESTION

By CARL D. GROAT.
(U. P. Staff Correspondent.)
Washington, Dec. 2.—The American embargo on shipment of arms across the border promised today to become a live issue between this government and Mexico.

Carranza advises here secretly are displeased at the United States regulation which they claim prevents Carranzistas from getting shipments.

The Mexicans say frankly that the lack of ammunition was responsible for their defeat at Chihuahua City. On the other hand American officials hint that the Carranzistas had plenty of ammunition, but that the Villistas had taken it from them.

ARMISTICE FIXED IN GREEK CAPITAL

Allies To Withdraw Troops From Athens in Return For Six Mountain Batteries.

TENSE SITUATION CLEARS

(By United Press.)
London, Dec. 2.—An armistice has been effected between allied troops and Greek reservists at Athens. A dispatch from the Greek capital today asserted that King Constantine had agreed to the delivery of six mountain batteries to the allies.

In return, it is said, the allies agreed to withdraw their troops from the city pending reference to the agreement of the allied government.

London regarded this as indicating a clearing up in the tense situation brought about by refusal of the Greek government to acquiesce to the allied demands for disarmament of Greece. This refusal was marked with sanguine fighting between allied troops and Greek reservists. There were encounters at three points in the outskirts of the city. A panic seized upon the residents of the Greek capital—the streets were deserted of civilians, the shops were closed and business was at a standstill.

JOHN MUIR AND HIS BREAD.

The Famous Naturalist Lived the Real Simple Life.

The naturalist and explorer, John Muir, was a curiously simple man—as simple in his tastes and appetites as in his views of life and conduct. On his trips through the Sierras he never carried a gun and never killed game, nor did he catch fish.

He lived almost exclusively on plain dry bread. "There is no waste in it," he used to say. "Every particle is of value. I also take along a small package of tea and a little tin cup in a stout canvas bag. I can sustain my strength on this diet for months at a time. I occasionally run across some wild berries or an edible root to chew on, but they are not important."

At dinners to which he was invited Mr. Muir would usually barely taste of soup or fruit, never touch meat or any fancy dessert, talk while others ate and nibble away between times at a slice of bread without butter.

Once while visiting Pasadena he was one of a party starting out to get supper, after which it was purposed to spend the evening in the rooms of one of the company. As they walked along the street they passed a bakery, and Mr. Muir stopped. "Why, friends, look here!" he said. "That is good looking bread. Why go any farther? Let's buy a couple of loaves and take them to the room with us." And he was quite in earnest.

Once a friend took him to luncheon at a famous restaurant in San Francisco. As they took seats at a table Mr. Muir was engaged in some discussion in which he was so absorbed that he was oblivious to everything else. His friend could not interrupt him, and so the talk flowed on until the time approached for closing the restaurant. The head waiter told the host that he must give his order without further delay. Taking advantage of the interruption, the friend suggested to Mr. Muir that he should give his order. He seemed startled. "I have all I wish," he exclaimed. "Order for yourself." For an hour as he talked he had been chewing bits of bread.—Youth's Companion.

VIOLENT COMBATS IN NEW OFFENSIVE

Battles Are Exceedingly Bitter as Russians Press Forward to Relieve the Rumanians.

BERLIN CLAIMS A VICTORY

(By United Press.)
London, Dec. 2.—The most violent combats are marking the progress the new Russian offensive in the Carpathians and along the Transylvanian frontier, started to relieve the German pressure on Bucharest.

The combats are exceedingly bitter, today's official statement declared, with the Germans stubbornly resisting. Large losses to the Rumanian army were recorded in the German official statement. The defeat of the first Rumanian army and the capture of many prisoners and a large amount of war material was announced.

200 KNIGHTS AT
RABBIT SUPPERCrowd at K. of P. Feast Exceeds
Expectations and Hunters
Barely Have Enough Game.

SOME PAST GRAND OFFICERS

S. L. Trabue Presides as Toastmas-
ter and Number of Visiting
Members Make Speeches.

Nearly 200 Knights of Pythias at-
tended the rabbit supper last night
served at the banquet room of the
hall. Several visitors were present,
including some past grand officers.
The banquet was the start of a cam-
paign which is expected to culminate
in a membership of 500 for the local
lodge.

This has been the goal set for this
year and there is every reason to
believe that it will be reached. The
rabbit supper was given for the pur-
pose of getting a large number of
the lodge members together and
then starting the campaign.

The crowd far exceeded the ex-
pectations of the committee in
charge and the hunters who invaded
the fields this week seeking the
elusive rabbit came nearly not get-
ting enough game.

Samuel L. Trabue presided as
toast master and a number of visit-
ing members responded. Among
those who spoke were Charles F.
Reany of Indianapolis, past grand
chancellor; Harry Wade, Indian-
apolis, past grand keeper of records
and seals and at present president
of the insurance department of the
order; Col. C. A. Phelps, Newcas-
tle, commanding the Third Regiment
of the Uniform Rank, and James B.
Compton, Newcastle, district deputy
grand chancellor. Chauncey Dan-
can spoke for the local lodge, urging
each member to be a busler.

Mr. Compton, the district deputy
grand chancellor, urged a large at-
tendance at the district meeting of
the order to be held in Cambridge

\$25,000 ASKED ON
BREACH OF PROMISESuit of Bertha L. Collins Against
Earl Gibbs Comes From Han-
cock on Change of Venue.

HUMILIATED, SHE ASSERTS

A sensational breach of promise
suit from Hancock county has been
received in the local circuit court on
a change of venue. It is the suit of
Bertha L. Collins against Earl Gibbs
in which the demand is \$25,-
000.

The plaintiff alleges that on De-
cember 25, 1915, he promised to
marry her and that the wedding was
set for May 1, 1916. The com-
plaint states that she relied on his
promise and went to great expense
in preparing for the wedding. On
May 1 she requested him to marry
her, according to the complaint, and
he refused.

She says she is willing and ready
to marry him and that the contract
was not carried out through any
fault of hers. She avers that on ac-
count of his failure to marry her
she has suffered great mental an-
guish and has been greatly humili-
ated.

ASKS REVIEW OF
TWO JUDGMENTSCity of Rushville Files Complaint in
Circuit Court Bearing on Gas
Rate Cases.

WANTS ERRORS CORRECTED

The City of Rushville has filed
two complaints in circuit court ask-
ing the court to review the judg-
ments in the cases of the city
against the Public Service Com-
mission involving the Peoples Nat-
ural Gas company and the Central
Fuel company.

The city filed suit originally ask-
ing for an injunction against the
commission from enforcing the gas
rate authorized by the commission.
The demurrers of the defendant to
both of the complaints were sus-
tained by Judge Sparks. In the
suits filed today the city says that
the judgment of the court is still in
effect and remains unappealed. The
city asks that the judgment of the
court be reversed and that the er-
rors of law be corrected. Kiplinger
and Smith represent the city.

six Americans known to be there be-
fore Villistas entered were still in
the city last Monday.

POLICY HOLDERS
HERE AFFECTEDMany Invested in Two Indiana Com-
panies Reinsured by Pension
Mutual of Pennsylvania.

SOME ALSO HELD MUCH STOCK

Letter Received Here Says Com-
pany is Hopelessly Insolvent and
Receivership Impends.

A letter has been received here
from J. D. O'Neil, insurance com-
missioner of Pennsylvania, stating
that the Pension Mutual Life Insur-
ance company of that state is hope-
lessly insolvent and that the com-
missioner has applied to the Dauphin
county, Pennsylvania, court for a
degree of dissolution and the ap-
pointment of receiver.

That would not mean much to
Rush county readers but for the fact
that the Pension Mutual reinsured
the Commercial Life Insurance com-
pany and the Reliable Life Insurance
company, both of Indiana, in which
many here had taken policies. Fur-
thermore, all of the policy holders
in the Commercial life received op-
tions on stock with their policies and
some purchased the stock. The
Pension Mutual was engaged solely
in reinsuring companies.

This brings to the attention of the
people of Indiana, it is stated by
agents here of reliable companies,
the need of legislation that will pre-
vent just what has happened in the
cases of the Reliable Life and the
Commercial Life.

It was being recalled here today
that Indiana should have insurance
laws like those of Massachusetts,
which are acknowledged to be the
best of any state in the United
States, and after which the New
York insurance law was modeled. It
is held that Indiana is sadly in need
of an insurance commissioner like
that of Pennsylvania who, backed
by a sound statute, can watch the
activities of all companies and see
that no "wildcat" schemes such as
have been worked in Indiana can be
foisted off on the people.

It is remembered that J. Frank
Hanly, when governor of Indiana,
prepared a model insurance law for
the state, but that it failed of pas-
sage because of Hanly's personal
unpopularity, combined with the ac-
tive opposition of the state insur-
ance lobby.

The worst feature, it is claimed
by those acquainted with the insur-
ance business, that is allowed to be
practiced in Indiana, is the stock
option scheme which allows agents
to hold out glowing prospects of
getting rich quick, when agents of
reliable companies are selling insur-
ance solely on its merits as it should
be sold.

A dispatch from Philadelphia to
the New York Times says that as a
result of the recent disclosure re-
garding the operations of the Pen-
sion Mutual agencies, a legislative
investigation of insurance condi-
tions in Pennsylvania may result.
James D. Scarlett, who acted as at-
torney in the insurance cases, the
dispatch further says, declared that
Charles E. Hughes was the man who
should conduct the investigation.
The proposal to investigate, it is
said, will be bitterly opposed by
some politicians who are interested
in the Pension Mutual.

ASKS FOR \$500
IN THIS COUNTYState Park Committee Requests
Sum be Raised Here to Help
Establish Park System.

W. R. JINNETT GETS LETTER

Communication Signed by Governor
and Governor-Elect Asks Help
Outside Indianapolis.

Representative W. R. Jinnett of
Manilla has received a request
signed by Governor Ralston and
Governor-Elect Goodrich to raise
\$500 in Rush county towards the
fund being used to establish a state
park system as a part of the state
Centennial celebration.

Because Rep. Jinnett has been
called to Hendricks county on busi-
ness to remain for two weeks, he
will be unable to look after the sub-
ject and has asked the Daily Re-
publican to receive subscriptions
and forward them to the treasurer
of the fund. Anyone who cares to
contribute to the cause should write
their checks payable to Sol. E. Kis-
er, treasurer, and send them to the
Daily Republican. They will in turn
be sent on to Mr. Kiser in Indian-
apolis.

The state park system was start-
ed under the guidance of the Indi-
ana Historical Commission, which
was in general charge of the county
celebrations and final state Cen-
tennial celebration.

The work has been carried on by
volunteer committees who have suc-
ceeded in raising large sums of
money and in acquiring two park
sites—Turkey Run in Parke county
and McCormick's Canyon in Owen
county—as a nucleus. As soon as
these park sites have been fully
paid for and the legislature has
created the proper authority for the
acceptance of them by the state, the
state park committee will present
these parks to Indiana.

The bulk of the money has been
raised in Indianapolis, but inasmuch
as these gifts are supposed to rep-
resent a permanent memorial for the
citizens of the entire state, the
park committee believes it fitting
that every county in the state
should be represented by the contri-
butions.

A very large amount of money is
still required to complete the pay-
ments and the committee now calls
on the counties outside of Marion
county to do their part. Represen-
tative Jinnett was selected by the
committee to obtain the services of
a volunteer committee of three to
five men to raise Rush county's
share of the burden—\$500.

Indianapolis, Ind., Dec. 2.—When
Mrs. John C. Maxley returned to
her home after a shopping trip to-
day, she found the body of her son
William, three years old, burned to
a crisp, and her daughter Maud, 20
months old, unconscious and so se-
verely burned that physicians hold
out no hope for her recovery. The
fire was caused when the boy igni-
ted some gasoline which the mother
had left.

CHANGE OCCUPIES
MOST OF THE TIMEGeorge B. Moore, Jr., Takes Office
As Clerk and Business in
Court as a Result is Light.

PASSES APPLES AND CIGARS

Business was light in circuit
court today as the change of officers
in the clerk's office occupied most of
the attention. The office opened this
morning with George B. Moore, Jr.,
and his deputy Charles Brooks in
charge. A. M. Taylor, the retiring
clerk and Mrs. Buelah Stevens, his
deputy will remain in the office a
few days to see that the new offi-
cers get onto the "ropes."

James Kiser and his wife, who
and costs and John Walter had his
stayed this morning. Both men
were recently found guilty of run-
ning a gambling house by a jury in
circuit court and were fined \$10 and
costs. The fine and costs amounts
to \$26.10. With the paying of one
fine and the staying of the other all
rumors of an appeal are set at rest.
The clerk-elect passed out cigars
and apples to callers.

FAILURE TO SUPPLY
FLOUR CAUSES SUITC. A. Gambill Manufacturing Co.
Brings Action Against Enter-
prise Milling Co. of Milroy.

WANTS \$3,000 ON A CONTRACT

The C. A. Gambill Manufacturing
Company, a Maryland corporation,
has filed suit against Thomas E.
Bottorff of Milroy, doing business as
the Enterprising Milling Company,
on a contract, demanding \$3,000.
The plaintiff alleges that the defend-
ant contracted to supply them 2,000
barrels of flour during the months of
July and August for export shipment,
sending the flour to Baltimore.

The complaint is in two para-
graphs, the first setting out the
claims of the plaintiff regarding the
amount of flour offered. The second
paragraph sets out two telegrams,
one from Bottorff offering to sell
the plaintiff 2,000 barrels of 95 per
cent straight bulk flour at \$5 a bar-
rel. The other telegram is an ac-
ceptance of the offer, the plaintiff
holding that these two telegrams
constituted a contract.

The complaint states that shortly
after the offer and contract was
made, the price of flour advanced and
the firm was compelled to pay the
sum of \$6.35 a barrel for flour to fill
their foreign orders.

MANIAC SHOOT
SHERIFF; CAUGHTMartin Rice, Murderer of Charles
Jones of Vermillion County,
Gives Himself up.

POSSE SURROUNDS HOUSE

Officer is Riddled With Bullets by
Insane Man Whom he Tried
to Place Under Arrest.

(By United Press.)
Cayuga, Ind., Dec. 2.—Martin
Rice, the maniac who shot and killed
Sheriff Charles Jones of Vermillion
county when the officer attempted to
take him into custody, was arrested
today without resistance.

Rice returned to his home under
cover of darkness. Members of the
posse who were watching the house
did not see him enter but just be-
fore dawn they saw a light in the
window. The house was surrounded
and the posse gradually advanced.

Rice met them at the door and
gave himself up. He was placed in
an automobile and taken to New-
port.

Sheriff Jones was called to Rice's
home by Mrs. Rice, who said her
husband had threatened to kill her.
Rice was once an inmate of asylum.
He ran a small store.

Rice opened fire as Jones stepped
on to the platform of the store and
did not stop until he had emptied his
gun, every one of the five shots find-
ing their mark.

It is believed that the first shot
killed Jones. Rice then threatened
to kill any one who followed him and
passing out of the back door of his
little store, soon was lost in the
darkness. The news was spread
quickly and surrounding towns were
notified to be on the lookout for the
slayer and to take no chances with
him.

FEDERAL AGENTS
ORDERED TO HELPDistrict Attorneys Instructed to As-
sist Investigating Food Price
Conspiracies.

SPECIAL AGENT APPOINTED

(By United Press.)
Washington, Dec. 2.—Every fed-
eral district attorney in the United
States was today ordered to give all
possible aid to George W. Anderson
in his investigation of alleged food
price conspiracy.

So important does the department
of justice consider the work that An-
derson has been named special as-
sistant to the attorney general. This
gives him jurisdiction to investigate
and prosecute any resultant discov-
eries of conspiracies in any section
of the country.

Department officials today said the
appointment of Anderson is not the
result of any "specific suspicion" as
to food price conspiracies.

The Princess offers the feature picture "Evidence" for the Saturday night program. Lillian Tucker and Edwin August are featured. It is said to be a wonderful dramatic offering. Monday the feature picture "Miss Petticoats" will be shown. It was adopted for the screen from the book by Dwight Tilton. Alice Brady is featured. The many scenes requiring a sea or mill scene were filmed in the requisite locale, the old fishing schooner, the Charles W. Morgan of New Bedford, Mass., as well as the Wunsutta Mills being utilized in the production of this feature.

The formal opening of the Gem under the management of Miss Mary Mason will take place tonight. Special music is on the program and flowers will be given the ladies. An unusually strong program is offered for the opening night. "The Heart of a Show Girl" is the title of the first picture. Ella Hall and Franklyn Farnum are featured. The second is a comedy "The Right Car but the Wrong Berth." The last is a comedy "The Terrible Turk." Ed die Lyons and Lee Moran are featured.

Perfect accord between film fans and art critics will prevail in Rushville Tuesday and Wednesday, Dec. 5th and 6th. The subject will be the super-feature "Purity" which will be shown at the Mystic theatre.

The artists of America are just now united in the opinion that there is one woman above all others that stands out as the most perfectly proportioned figure of the day. She is the model supreme, the personification of the flowing line. She is Audrey Munson, known everywhere as the model who posed for the most beautiful portions of the statuary at the San Francisco Exposition. In "Purity" she illustrates exactly why she has thus been signally honored. It is required by the plot that she pose for an artist that all the perfection of her body be revealed to the artist's eye, and through him to the world at large. It is the purpose of the picture to prove that such revelation is as pure as any other revelation of divine truth which has been given the world in any form. That this purpose is accomplished is apparent to all who have seen the picture. Miss Munson is supported by a cast of two hundred dancing girls, especially trained by some of the famous dancers. Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestine of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Factors in Road Problems.

The highway engineering department of Purdue university has lately issued a highway bulletin, chief interest in which lies the conclusion that are reached. The highway authority who is author of the pamphlet, although expressing pride for the fine system of roads which Indiana now enjoys, says that the time has passed when road problems can be met in the same way they always have been—by treating them locally.

The conclusion of the pamphlet is in the main an appeal for a state highway department so that Indiana can reap benefit from the federal aid highway law. The United States government will treat only with states for reasons which are very apparent, and in order to get her share of the funds which have been appropriated by congress to help states build permanent highways, Indiana must have an organized agency, backed by an efficient law, to look after all road matters.

"Roads which were entirely satisfactory ten years ago," says the conclusion of the bulletin, "are now inadequate to carry the traffic which comes upon them. Road building is speedily advancing from rule of thumb methods to its proper place as one of the engineering sciences. It is no longer possible for every man to be a good road builder. To build roads to meet present conditions require extensive training and experience. It is not possible for the small subdivisions to obtain men qualified to design and construct these modern highways."

Here we have the testimony of the expert and there is none who is so fortified that he can intelligently refute the assertions. We all know that building roads is a matter of dollars and cents to the taxpayers. We know also that we have spent over a million dollars for new roads in Rush county in the last decade and have very few permanent highways. It is time that we listen to the expert, the man best qualified to speak, on this matter of road building because it is an expensive experiment.

When you get ready to purchase your Christmas gifts—as you should be doing even now—remember that Rushville merchants have gone to considerably outlay to giving their patrons of Rush county the widest selection possible.

Since it is announced that the orders from the war department to "get Villa" still are in force, General Pershing should not have a great deal of difficulty in accomplishing that feat if he is allowed to "cut loose."

This business of living on 33 cents a day, as the diet squad in Chicago is, might be all right if a person had nothing to do after eating one meal but to arrange for the next one as cheaply as possible.

Now that Greece has had her seventh crisis, we may go on about our business with the usual calm restored.

Lining Up for Greatest Labor Fight in History

On one side, are the railroads of the United States representing a capitalization of twenty billions of dollars, and employing more than one and a half million persons, combined to fight the Adamson Law by injunction. They are supported by a new eight billion dollar organization of business men, called the National Industrial Conference Board, who give employment to nearly seven million persons. On the other side, are four hundred thousand members of four great Brotherhoods, backed by nearly four hundred thousand other workers and by the two million members of the American Federation of Labor.

With such an alinement there are ominous possibilities of a tremendous labor war this winter.

The railroad companies, according to one of their official spokesmen, "are agreed to fight to the end," against the enforcement of the Adamson law, while Samuel Gompers, President of the American Federation of Labor, says warningly "You throw down the gauntlet and we accept the challenge. When the time comes it will be another case of 'Lay on Macduff and damn'd be him that first cries 'Hold, enough.'"

"The Digest" Makes You An Independent Thinker

"Give every man thy ear" is the shrewd advice of the immortal bard, "but reserve thy judgment." No one of the sage maxims which he puts into the mouth of Polonius contains more practical wisdom than this. It applies with peculiar force to the question of modern periodicals. There are so very many of these and their statements and opinions differ so radically. Obviously to "give ear" to all of them and then to make one's own decision as

to what appear to be the facts is the best way to arrive at the truth, but no one has the time or the energy to dream of attempting this. THE LITERARY DIGEST actually does this for you every week and presents you with an impartial survey of the results, leaving you to form your own conclusions. It gives you all sides of all the great questions of the day without an atom of partizan bias, and makes you the judge and jury. Buy it to-day and do your own thinking.

BIBLE MANUSCRIPTS.

The Sinaitic, Alexandrian and Vatican Are the Oldest Known.

The oldest Bible manuscripts now in existence date from about 300 to 450 A. D. and show us the Bible as it existed soon after apostolic days. All the earlier manuscripts were either lost or destroyed in the terrible persecutions which were directed not only against the Christians, but against their treasured sacred writings, their enemies thus hoping to stamp out even the slightest traces of Christianity. The three oldest manuscripts now in existence are known as the Sinaitic, the Alexandrian and the Vatican manuscripts.

The Sinaitic was found by the eminent Bible scholar Tischendorf in a convent on Mount Sinai in 1844. It contained the Septuagint, other parts of the Old Testament, the New Testament complete and some of the apocryphal books. The writing, after a lapse of more than 1500 years, is still clear and legible.

The Alexandrian manuscript, which came to light in 1628, is not quite so ancient as the Sinaitic. It has the Old Testament complete, except that ten leaves are missing, and the New Testament lacks nearly thirty leaves. It is in the British museum.

The Vatican manuscript, the most ancient of all, is a great treasure, consisting of about 700 leaves of vellum bound in book form. Part of Genesis is missing and also a number of the Psalms. The New Testament is complete up to Hebrews, ninth chapter.

Other early Bible manuscripts of great value, but inferior to the three mentioned, are the Codex Ephraem and the Codex Bezae, besides which there is a long list of later manuscripts. —Christian Herald.

CONNERSVILLE IS OUTPLAYED

Rushville High School Wins Handily
Away From Home on Dinky
Floor by 35 to 15 Score.

GAME IS ROUGH ALL THE WAY

Both Fives Are Offenders, One Man
on Each Quintet Being Put
Out During Last Half.

Rushville outplayed and outgamed Connersville last night to the tune of 35 to 15. The game was played on the dinky Connersville floor, which makes the Rushville victory all the more remarkable.

The game was a scrap from start to finish and when the players were not at it the spectators who crowded onto the playing floor were taking a hand by tripping the Rushville players. Twice Oakley was tripped and other players came in for their share of abuse. The crowd was out on the floor at both ends of the gym and even with all this advantage the Connersville team was outclassed.

The game was exceedingly rough. Both teams were the offenders. This was probably because both fought so hard to win that the roughness was unintentional. The first half ended 14 to 9 in favor of Rushville and an example of how rough the game was is shown by the fact that Connersville failed to make a field goal in the final period but did register five foul goals and missed probably as many more. Norman Reed and Red Wanley mixed in the last half with the result that both players were taken from the game. Wanley had only been in the game a few minutes when he and Reed came to blows, with the result that both were ejected.

The loss of Reed did not hurt the Rushville team as it had a commanding lead. Rushville was ahead from the very start. Only once did Connersville have a show and that was late in the first half, when the score was tied at six each.

Rushville jumped into a two point lead right at the start when two fouls were called on Connersville and Martin made both of the free throws count. This two point lead was soon increased to five while Connersville had nothing. Then Connersville braced and worked into a tie at six points. Rushville gradually pulled away and by some of the best team work ever seen on the Connersville floor secured a lead of

five points at the end of the first half.

The Rushville guards broke up Connersville plays before they hardly got started. Rushville was on the offensive throughout and the work of Martin, Thorpe, Oakley and Keating as the point getters was far superior to anything offered by Connersville. The victory last night is two this season for the locals over Connersville. In the game on the home floor Rushville beat Connersville 52 to 6 and the result last night clearly shows that Rushville has it on the Connersville team this year. The line-up and summary: Rushville (35) Connersville (15)

EARLY MAILING IS NOW BEING URGED

Fearful of Rush That is to Come
Postal Officials Advise Mail-
ing Now.

WILL HELP EMPLOYEES

(By United Press.)
Washington, Dec. 2.—"Don't your Christmas mailing early and that means—do it now."

Fearful of a rush of business in the several days before Christmas which will jam the postal system so that some mail will necessarily be delayed, officials today came to bat with the above warning.

"It is absolutely urgent," said one, "that mail going to foreign countries get away at once if Christmas deliveries are hoped for. The censorship of the belligerent countries spells delay and even countries not at war are having trouble with their mail."

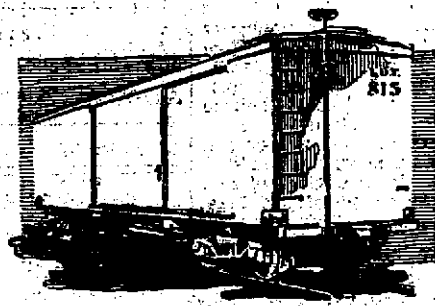

Postal employees are looking forward with dread to the Christmas parcel post load. If those who usually wait until the last minute, will only hurry up, mark the packages, "Not to be Opened Until Christmas," they will confer a series of joys, one to the recipient and one each to every postal employee who has to handle the package.

Overland Automobiles

Which

Prefer?

Pullman or Freight?

No one would think of riding in a freight car if he could enjoy the comfort of a big, comfortable easy riding Pullman parlor car.

So with automobiles. Most of the popular priced cars ride like freight cars. This is due to the old fashioned type of spring.

Many manufacturers still continue to use them.

The Overland does not. The 75 H Overland has the latest type of cantilever shock absorbing springs. As a result it is one of the easiest riding cars in the world. One demonstration will prove this. \$635 f. o. b. Toledo.

EXERCISE AND HEALTH.

Simple Rules For Developing the Body and Keeping "Fit"

"It isn't necessary to give a lot of time to the job of keeping fit," said the physical director of West Point Military academy. "Ten or fifteen minutes of setting up exercise in the morning and a walk every day—not necessarily a long one, but one in which you march briskly like a soldier, with your head and chest up and your shoulders back—will work wonders. Do you know why so many men are narrow chested and weak? It is because they never have given themselves a chance to breathe and never have given their muscles enough exercise. "Many people, men, women and children, are semi-invalids most of their lives because of the lack of a few minutes of daily exercise and also because they have never been taught a proper posture and carriage—such, for instance, as we insist upon at all times in cadets—a position in which every organ of the body is held in its proper place, with ample space to carry on its own particular function without restriction, and in which every muscle of the body is furnishing its own transportation, so to speak, and not depending upon other muscles to do for it what it was intended it should do for itself. "Proper posture and carriage, with shoulders square, chest arched, head erect and body well stretched from the waist up, will of their own account contribute much toward relieving our people of the many petty and not a few of the serious ills from which they are now suffering. They are the foundation of robust health and should be insisted upon in children from the very beginning until they become a habit and as such will displace the disease breeding, slouchy habit now so prevalent among people of all ages and stations."—World's Work.

Acts of the Apostles. The weight of testimony is in favor of St. Luke as the author of the Acts of the Apostles, though some respectable critics claim that the authorship is quite unknown. There are no sure data for determining the date of the Acts. Various dates have been ascribed. Some think that it was written about the year 80, while others hold that it could not have been written before the second century, about A. D. 125.—New York American.

ARMS EMBARGO TO BECOME LIVE ISSUE

Carranza Said to be Displeased Because He Believes It Responsible For Defeat

OTHER SIDE OF QUESTION

By CARL D. GHOAT

(U. P. Staff Correspondent.)

Washington, Dec. 2.—The American embargo on shipment of arms across the border promised today to become a live issue between this government and Mexico.

Carranza advises here secretly are displeased at the United States regulation which they claim prevents Carranzistas from getting shipments.

The Mexicans say frankly that the lack of ammunition was responsible for their defeat at Chihuahua City. On the other hand American officials hint that the Carranzistas had plenty of ammunition, but that the Villistas had taken it from them.

ARMISTICE FIXED IN GREEK CAPITAL

Allies To Withdraw Troops From Athens in Return For Six Mountain Batteries.

TENSE SITUATION CLEARS

(By United Press.)

London, Dec. 2.—An armistice has been effected between allied troops and Greek reservists at Athens. A dispatch from the Greek capital today asserted that King Constantine had agreed to the delivery of six mountain batteries to the allies.

In return, it is said, the allies agreed to withdraw their troops from the city pending reference to the agreement of the allied government.

London regarded this as indicating a clearing up in the tense situation brought about by refusal of the Greek government to acquiesce to the allied demands for disarmament of Greece. This refusal was marked with sanguine fighting between allied troops and Greek reservists. There were encounters at three points in the outskirts of the city. A panic seized upon the residents of the Greek capital—the streets were deserted of civilians; the shops were closed and business was at a standstill.

JOHN MUIR AND HIS BREAD.

The Famous Naturalist Lived the Real Simple Life.

The naturalist and explorer, John Muir, was a curiously simple man—as simple in his tastes and appetites as in his views of life and conduct. On his trips through the Sierras he never carried a gun and never killed game, nor did he catch fish.

He lived almost exclusively on plain dry bread. "There is no waste in it," he used to say. "Every particle is of value. I also take along a small package of tea and a little tin cup in a stout canvas bag. I can sustain my strength on this diet for months at a time. I occasionally run across some wild berries or an edible root to chew on, but they are not important."

At dinners to which he was invited Mr. Muir would usually barely taste of soup or fruit, never touch meat or any fancy dessert, talk while others ate and nibble away between times at a slice of bread without butter.

Once while visiting Pasadena he was one of a party starting out to get supper, after which it was purposed to spend the evening in the rooms of one of the company. As they walked along the street they passed a bakery, and Mr. Muir stopped. "Why, friends, look here!" he said. "That is good looking bread. Why go any farther? Let's buy a couple of loaves and take them to the room with us." And he was quite in earnest.

Once a friend took him to luncheon at a famous restaurant in San Francisco. As they took seats at a table Mr. Muir was engaged in some discussion in which he was so absorbed that he was oblivious to everything else. His friend could not interrupt him, and so the talk flowed on until the time approached for closing the restaurant. The head waiter told the host that he must give his order without further delay. Taking advantage of the interruption, the friend suggested to Mr. Muir that he should give his order. He seemed startled. "I have all I wish," he exclaimed. "Order for yourself." For an hour as he talked he had been chewing bits of bread—YOUTH'S COMPANION.

VIOLENT COMBATS IN NEW OFFENSIVE

Battles Are Exceedingly Bitter as Russians Press Forward to Relieve the Rumanians.

BERLIN CLAIMS A VICTORY

(By United Press.)

London, Dec. 2.—The most violent combats are marking the progress of the new Russian offensive in the Carpathians and along the Transylvanian frontier, started to relieve the German pressure on Bucharest.

The combats are exceedingly bitter, today's official statement declared, with the Germans stubbornly resisting. Large losses to the Rumanian army were recorded in the German official statement. The defeat of the first Rumanian army and the capture of many prisoners and a large amount of war material was announced.

LLOYD GEORGE MAY QUIT.
